Student Testing and Assessment Program

The District student assessment program provides information for determining individual student achievement and guidance needs, curriculum and instruction effectiveness, as well as school performance measured against District student learning objectives and statewide norms.

The Superintendent or designee shall develop and supervise a student assessment program and shall provide appropriate data to the Board to allow it to monitor the program's results. The program will:

1. Use the State assessment system and any other appropriate assessment methods and instruments, including norm and criterion-referenced achievement tests, aptitude tests, proficiency tests, and teacher-developed tests.
2. Conform to the schedule required by State law. It may include testing students in grades not required by State law to be tested.
3. Be uniformly applied to all students who are required to be tested, including: (a) students in a State approved transitional bilingual education or transitional program, and (b) students who have an Individualized Educational Plan (IEP).
4. Emphasize professional testing practices.

Overall student assessment data on tests required by State law will be aggregated by the District and reported, along with other information, on the District's annual report card. Board policy 7:340, *Student Records*, and its implementing procedures govern recordkeeping and access issues.
